Profile

Results-driven Full-Stack Developer with expertise in **Laravel, JavaScript, and ReactJS**, specializing in **scalable web applications** and high-performance backend solutions. Proficient in **database design** (MySQL, Firestore, MongoDB) and **third-party integrations**, including **Cinetpay, Razorpay, Twilio, and HubSpot**. Skilled in **social authentication** (Facebook, Instagram, LinkedIn) and real-time data synchronization.

Experienced in **DevOps practices**, including **CI/CD, Dockerization, cloud deployments (AWS, GCP, DigitalOcean), and Kubernetes (EKS) setup**. Adept at **iOS app deployment** to the App Store. Strong **problem-solving, client communication, and stakeholder management skills**, ensuring seamless project execution and business alignment.

Professional Experience

Development Engineer

03/2022 - present

Sarcon Technologies Private Limited

Bengaluru

- Developed and optimized web applications using Laravel, Jobs & Queues, Broadcasting Events, and Eloquent ORM.
- Integrated social media APIs (Twitter, Facebook, Instagram) and WhatsApp for enhanced engagement.
- Implemented SSO authentication and secured real-time data with Firestore rules.
- Automated CRM workflows with HubSpot API integration.
- Streamlined version control and collaboration using GitHub CLI.
- Automated AWS infrastructure provisioning with **Terraform**, including VPC (public/private subnets), Internet Gateway, Security Groups, EKS cluster, RDS database, and Load Balancer setup.
- Implemented **scalable deployments** by configuring Horizontal Pod Autoscaler and Cluster Autoscaler for Kubernetes workloads.
- Set up **log shipping and monitoring** using **Fluent bit**, ensuring reliable observability of applications.
- Configured **Ingress and DNS routing**, enabling secure and optimized traffic flow.
- Deployed full application stack on AWS, followed by **stress testing** to validate performance and scalability.

- Replicated similar infrastructure deployment in **GCP (non-Terraform approach)**, gaining cross-cloud exposure.

PHP Web Developer

01/2019 - 02/2022

Pavans Group

Vadodara

- Developed and maintained backend systems using Laravel and CodeIgniter, with frontend contributions in JavaScript, HTML, and CSS.
- Built and optimized travel booking and parcel delivery management systems with real-time tracking, sub-user management, and reporting.
- Integrated Google Firestore for real-time data and Google Maps API for location-based services.
- Contributed to diverse projects, including a real estate utility portal and tax management application.
- Proficient in AJAX, jQuery, and third-party API integrations to enhance functionality.

Trainee Web Developer (pursuing bachelors)

06/2018 - 10/2018

WebsManiac Inc.

Rajkot

Education

Bachelor - Computer Engineering

06/2016 - 06/2019

Gujarat Technological University

Rajkot, India

Diploma - Computer Engineering

06/2013 - 06/2016

Maharaja Sayajirao University

Vadodara, India

Skills

PHP (CodeIgniter & Laravel)

Node.js

REST APIs

JavaScript (React.js, Vue.js)

HTML, CSS

MySQL, MongoDB, Google Firestore, DynamoDB

Client Communication, Project Management

CI/CD, Docker, Kubernetes (EKS)

Version Control (Git, GitHub)

iOS App Deployment

Google Maps API

Social Authentication (Facebook, Instagram, LinkedIn)

Payment Integrations (Cinetrpay, Razorpay)

Twilio (SMS & WhatsApp)

HubSpot CRM, Zapier

AWS, Google Cloud, DigitalOcean
